Dear Myriam

I am just writing to say "Thank You" for the business opportunity you have provided to me. The Recovery Consulting Programme is exactly what I have been looking for. After completing intensive study and workplace training to become a Teacher's Aide, a career which I thought would suit my young family, I discovered that it wasn't what I was looking for. That's when I stumbled across the Money Recovery Programme, and knew this was it! I truly could work my own hours around my family.

The information in the package is comprehensive and put together in the most simple way possible – because really, the business is simple! Yet if I had to accumulate all the resources myself I wouldn't have known where to start and it would have taken possibly years to get my business up and running.

So with your package I was able to establish my business in the most effective manner and start producing an income in minimal time and with minimal fuss. I love the flexibility and the income the Money Recovery Programme has given me, and I will not need to be looking for a dull 9-5 job ever again!

Thank you once again,

Sincerely

Jody [redacted]
